EDUCATION

Bachelor of Engineering (Information Technology)

Don Bosco Institute of Technology, Mumbai

2020 - Present

CGPA - 8.99(till sem 6)

HSC (12th Science)

R.K.Talreja college

2018 - 2020

SSC (10th Grade)

Don Bosco High School

2017 - 2018

WORK EXPERIENCE

ML Intern

MindStix Software Labs, Pune

01/2023 - 04/2023

Achievements/Tasks

- Developed an automated chatbot for interviews and answer assessment, leveraging NLP techniques and transformers.
- Utilized language models like BERT and Universal Sentence Encoder for advanced text processing, classification, and automatic response evaluation.
- Implemented various similarity approaches and machine learning algorithms to enhance the chatbot's understanding and matching capabilities, improving its response evaluation module.

Assitant technical instructor

Engineering Future - CrEAST Initiative
(Collaboration with L&T)

08/2022 - 02/2023

Achievements/Tasks

- Assisted instructor in teaching advanced technical skills to young students.
- Prepared teaching materials and conducted interactive sessions on Web Development.
- Mentored students, providing guidance and monitoring their progress throughout the learning process.
- Hosted student's websites online to showcase their work.

SKILLS

App Development

Full Stack Development

Database Management

Version Control

OOPS

Machine Learning

PERSONAL PROJECTS

CLUEDIN

- CluedIn web is a web application through which teachers, management and others can send these updates and notifications which will be delivered to students through the mobile app.

ASAG

- The "Automated short answer grading system" offers a solution to the time-consuming and error-prone manual student response evaluations. Its an AIML based Mock Interview Bot.

CREATE-FS-APP

- The create-fs-app CLI is a powerful npm package designed to streamline the process of creating full stack applications. With just a single command, developers can generate a fully configured application, complete with all the necessary components and configurations

LEADERSHIP

Web Development Head, CSI-DBIT(Computer Society of India)

Developed CSI's official website and part of various projects under CSI-DBIT

ACHIEVEMENTS

Secured 2nd position in the college's Innovex platform for demonstrating innovation and excellence in the project

Actively maintaining and managing Official DBIT website and various departmental websites.
